

## Vita d'Uva

### TORREVILLA PRESENTS "VITA D'UVA":

A hundred year old history, a great determination to reach ambitious goals and a special instinct for anticipating world trends – wine: Torrevilla, the winery which since one hundred years puts its signature on the "Oltrepò Pavese" and translates upcoming tastes into dynamic promoting activities of the territory and its enological culture: these are only a few examples of the numerous enogastronomical events which take place in the winery throughout the year, where particular attention is given to the two Wine-cellars, a summary of typicality and of traditional flavours in combination with the wines of the winery. Then, the latest initiative: "**Vita d'Uva**", a line of cosmetic products signed by Torrevilla and dedicated to the wellness of skin and hair, designed on the basis of the most recent scientific findings in relation to the particular and ancient properties of the Vitis Vinifera: "The vine is a source of life" says the line which promotes the new products.

Wine and health, wine and wellness: rather than just a simple statement it is more a life style which includes body care with the use of products based on the regenerating properties of this precious grape-bearing plant, which help to prevent early aging of skin and hair.

In this way Torrevilla reserves special attention to the ladies who visit the winery where they can try all products which "**Vita d'Uva**" puts at their disposal.
